During Covid-19 and Cyclone Amphan in 2020

We distributed food and essential provisions such as rice, pulses, cooking oil, soaps, sanitary napkins, etc. in the Sunderbans and Kolkata depending on the needs of the families in the community.

We helped in the construction of a tele tower in a remote village called Purbo Shreepati Nagar in the Sundarbans to help make online education accessible in the time of the pandemic.

In collaboration with "Prantojon" initiative, we distributed 300 books to establish Prof. (Dr.) Shamnad Basheer Night School & Library! We also donated bookshelves. This has helped nearly 2000 students all of whom come from the most marginalized communities.
During Covid-19 and Cyclone Amphan in 2020

We helped in the construction of houses in the Beleghata slum in Kolkata for families who were left without shelter due to the onslaught of Cyclone Amphan.

IMPACT in Numbers

- In 12 distribution drives across 14 villages in West Bengal, we distributed relief material to 1600+ families.

- By establishing Prof. (Dr.) Shamnad Basheer Night School & Library in Chaltaberia village of Bhangar Li Theasil, we provided access to around 2000 students from marginalized communities to basic books and study facilities.

- We have constructed 10 houses in the Beleghata slum in Kolkata till now.
As India grapples with the second wave of COVID-19, IDIA (being a grassroots community-oriented organization) desires to contribute its bit to fight this battle by setting up “Isolation Centers” in the Sunderbans area of West Bengal.

The centers will be in some of the villages where there is a dearth of basic facilities. Our response will include:

a) **Establishing centers** that will allow isolation to those with symptoms before hospitalization.

b) The centers will be **rural-focused** with the first one in a village called Murokhali in West Bengal.

c) The centers will have **medicines, food, and other basic facilities**.
Establish **boat ambulances** starting with Purbo Shripatinagar village in West Bengal.

Launch **Covid-19 sensitization drives** along with distribution of masks, soaps, etc.

Establish **blood donation camps**.

Provide **verified information** regarding vacant beds in hospitals, doctors' availability, oxygen availability, plasma donors' availability, test centers availability, etc.

Organizing **medical tests**, including oximeter **checks**, at centers in rural West Bengal.
